Meteorology & Geophysics

(QUARTERLY)

Issued by India Meteorological Department

Vol. 17 Nos. 1 — 4

1966

PRINTED IN INDIA BY THE MANAGER GOVERNMENT OF INDIA PRESS
SIMLA FOR THE MANAGER OF PUBLICATIONS CIVIL LINES DELHI

1966

EDITORIAL COMMITTEE (1966)

Editor and Chairman (ex-officio)

L. S. MATHUR* — *Director General of Observatories*

Secretary — **U. K. BOSE**

Assistant Secretary — **B. K. SEN**

Members

R. ANANTHAKRISHNAN

S. BASU

R. V. KARANDIKAR

M. S. KRISHNAN

A. K. MALLIK†

B. P. PAL

N. K. PANIKKAR

P. R. PISHAROTY

K. N. RAO

* C. Ramaswamy, Director General of Observatories was the *Editor and Chairman* till 19 August 1966

† Upto 21 September 1966

Indian Journal of Meteorology and Geophysics

Vol. 17

Nos. 1-4

CONTENTS

Vol. 17 No. 1

	Pages
ARTICLE	
Classification and interpretation of Radar Weather Echoes in India — <i>L. S. Mathur</i> and <i>S. M. Kulshrestha</i>	1
PAPERS	
Sunshine, Rainfall and Cloudiness over Bombay — <i>K. N. Rao</i> and <i>D. R. K. Rao</i>	17
Some aspects of the Statistical Distribution of Upper Winds over India — <i>S. Rangarajan</i> and <i>R. Y. Mokashi</i>	25
Climatology of the Crop Seasons of India — 2. Wheat — <i>A. K. Mallik</i>	39
Unusually early and heavy snowfall over the Punjab Himalayas — A case study — <i>R. K. Datta</i>	49
A simple system for continuous measurement of average wind speed and its digital display — <i>B. Bhargava</i> and <i>N. P. Jauhari</i>	57
SHORTER CONTRIBUTIONS	
Pronounced Humidity Dip associated with thundersqualls at Colaba, Bombay — <i>V. Vittal Sarma</i>	67
A study of Squalls at Ahmedabad airfield — <i>S. P. Saxena</i> and <i>R. Natarajan</i>	71
Squalls at Nagpur — <i>K. K. Sharma</i>	77
Meteorological support for two-stage rockets at Thumba — <i>M. S. V. Rao</i> and <i>D. N. Sikdar</i>	83
A study on Human Comfort of some places in India — <i>K. Sivaramakrishnaiah</i>	89
Heights of the Airglow Emission Layers at Poona — <i>M. W. Chiplonkar</i> , <i>V. V. Agashe</i> and <i>A. D. Tillu</i>	95
An estimate of Solar Radiation over India in the pre-monsoon season — <i>M. G. Gupta</i>	101
Solar control of the Quiet-Day range in <i>H</i> at Alibag for the period 1905-1960 — <i>A. Yacob</i>	109
LETTER TO THE EDITOR	
Local variations in Rainfall pattern at Coimbatore — <i>C. Balasubramanian</i> and <i>G. Manickam</i>	113
WEATHER	115
SOLAR, GEOMAGNETIC, IONOSPHERIC AND OZONE DATA	121
SEISMOLOGICAL NOTES	135
NOTES AND NEWS	137

	<i>Pages</i>
REVIEWS	
Radiative Heat Exchange in the Atmosphere (<i>Anna Mani</i>)	145
Clay and Clay Minerals (<i>M. S. Krishnan</i>)	146
Progress in Oceanography (<i>A. A. Ramasastry</i>)	147
Mesures en Météorologie (<i>Anna Mani</i>)	149
ABSTRACTS OF PAPERS (<i>in Hindi</i>)	1
WEATHER SUMMARY (<i>in Hindi</i>)	6

Vol. 17 No. 2

PAPERS

The problem of Fronts in the Indian Atmosphere	151
— <i>C. Ramaswamy</i>	
A synoptic study of Rameswaram Cyclone of December 1964 and the storm wave caused by it	171
— <i>N. S. Bhaskara Rao and S. Mazumdar</i>	
Vector Mean Wind and Standard Vector Deviations for selected Rawin stations in India	179
— <i>Sumathi Yegnanarayanan</i>	
The morphology of Great Geomagnetic Storms recorded at Alibag for the period 1905 - 1945 : Part II - The Disturbance local time inequality, <i>DS</i> , and the Disturbance Daily variation, <i>SD</i>	187
— <i>A. Yacob and N. S. Sastri</i>	

SHORTER CONTRIBUTIONS

A study of winds up to 32 km over Hyderabad Deccan	199
— <i>R. G. Gupta</i>	
Diurnal and seasonal variations of Squalls in India	207
— <i>S. M. A. Alvi and K. G. Punjabi</i>	
A study of Squalls at Santacruz Observatory, Bombay	217
— <i>M. V. Dekate and K. K. Bajaj</i>	
Radar upper wind measurements at New Delhi using Decca wind finding radar — Type WF 2	225
— <i>N. Seshadri</i>	
Multicellular thundercloud and interesting surface weather phenomena at Meenambakkam airfield on 15 July 1965	233
— <i>D. R. Swaminathan</i>	
A radar study of post monsoon thunderstorms over Bombay airport	237
— <i>V. Narayanan and G. Krishnamurthy</i>	
Stability Index and Thunderstorms over Nagpur	245
— <i>B. L. Sharma and K. K. Sharma</i>	
Radar observations of monsoon precipitation	249
— <i>G. P. Srivastava, B. B. Huddar and V. Srinivasan</i>	
Exceptionally heavy Rainfall in south Kerala on 17/18 October 1964	253
— <i>C. E. J. Daniel and A. H. Subramaniam</i>	
A study of the relationship between the previous barometric pressure and relative humidity on the daily rainfall at Coimbatore	257
— <i>C. Balasubramanian, G. Manickam, and R. Jankiraman</i>	

An improved radiosonde for the measurement of electric potential gradient in the atmosphere	— <i>G. P. Srivastava, C. R. Sreedharan and B. B. Huddar</i>	261
Frequency distribution of geomagnetic disturbance commencements at Alibag for the period 1921—1960	— <i>N. Sivasankara Sastri</i>	265
Day-time enhancement of Geomagnetic Disturbance at the magnetic equator in India	— <i>A. Jacob</i>	271
A crystal diode meter circuit for Dobson Ozone Spectrophotometer	— <i>N. Sen Roy</i>	277
A preliminary note on the travel times of <i>P</i> and <i>S</i> waves in the Indian subcontinent	— <i>S. K. Nag</i>	281

LETTERS TO THE EDITOR

Record of Alaskan earthquake of 1964 on Annamalainagar magnetograms	— <i>P. K. Srinivasan</i>	287
Thunderstorms at Delhi <i>vis-a-vis</i> the Lunar phase	— <i>M. M. Nyasthani and T. R. Visvanathan</i>	288
Comments on a note on 'Width of the electrojet over south India'	— <i>K. S. Raja Rao</i>	289
Reply	— <i>P. R. Pisharoty</i>	289

ARTICLE

Rainfall and Floods during 1965 Southwest Monsoon period	327
--	-----

PAPERS

A Technique for Forecasting Storm Waves	— <i>N. S. Bhaskara Rao and S. Mazumdar</i>	333
A study of the Onset of the Monsoon over India during 1962 using TIROS IV Radiation Data	— <i>P. Krishna Rao</i>	347
Dry periods during the Southwest Monsoon in Rajasthan West	— <i>A. K. Mallik</i>	357
Radio-Climatology of India : I. Radio Refractive Index near the ground surface	— <i>S. M. Kulshrestha and K. Chatterjee</i>	367

	<i>Pages</i>
Seismic Surface Wave Dispersion and the Crust across the Gangetic basin — <i>H. M. Chaudhury</i>	385
SHORTER CONTRIBUTIONS	
Persistence of the movement of the tropical cyclones/depressions in the Bay of Bengal during the premonsoon and post monsoon periods — <i>S. Jayaraman, T. R. Srinivasan and N. C. Rai Sircar</i>	395
Why little Rain over the west and north Arabian Sea and over and around the West Pakistan heat low during the Southwest Monsoon Season ? — <i>B. N. Desai</i>	399
Computation of Streamlines associated with a low latitude Cyclone — <i>A. C. Tangri</i>	401
Existence of low level westerly Jet Stream over peninsular India during July — <i>P. V. Joseph and P. L. Raman</i>	407
Nomograms for evaluating Richardson Number for forecasting Clear Air Turbulence — <i>P. V. Joseph and Ranjit Singh</i>	411
A note on evaluation of the Richardson Number in relation to forecasting Clear Air Turbulence — <i>P. S. N. Sastry</i>	415
Mountain Lee Waves over Western Ghats — <i>M. C. Sinha</i>	419
A Tornado over northwest Assam and adjoining West Bengal on 19 April 1963 — <i>J. Nandy and A. K. Mukherjee</i>	421
The Cooch Behar — Assam Tornado of 19 April 1963 — <i>K. R. Saha</i>	427
Incidence of Low Clouds at Bombay airport (Santacruz) with reference to Jet landings with the help of the Instrument Landing System (ILS) — <i>P. Siromani</i>	433
Seasonal Oscillations of daily mean Maximum Temperature in India and neighbourhood — <i>A. K. Banerjee and K. K. Sharma</i>	443
Frequency of wet and dry spells at five stations in Rajasthan — <i>B. R. D. Gupta</i>	451
A proton Precession Magnetometer — <i>B. N. Bhargava and G. A. Kasiviswanathan</i>	457
Structure of Microseisms from Bay of Bengal — <i>B. P. Saha</i>	463
Surface wave dispersion and crustal structure in Asia — <i>S. K. Nag</i>	469
Distribution of energy in <i>P</i> and <i>S</i> Seismic bodily waves — <i>B. P. Saha</i>	473
LETTERS TO THE EDITOR	
Rayleigh wave dispersion and crustal structure from Russian Nuclear Explosion of 30 October 1961 — <i>U. S. De</i>	475

	<i>Pages</i>
A wide band Local Oscillator for 403 Mc/s Rawin Receiver	
— <i>N. Sen Roy and S. Prakash</i>	477
A study of annual oscillations of tropopause over India	
— <i>K. K. Sharma</i>	479
WEATHER	481
SOLAR, GEOMAGNETIC, IONOSPHERIC AND OZONE DATA	485
SEISMOLOGICAL NOTES	505
INDIAN ROCKETSONDE DATA	508
NOTES AND NEWS	509
REVIEWS	
Sites for Wind-Power Installations (<i>S. P. Venkiteshwaran</i>)	513
Meteorology and the Desert Locust (<i>A. K. Mallik</i>)	513
V. DORAISWAMY IYER	
— <i>C. Ramaswamy</i>	515
ABSTRACTS OF PAPERS (<i>in Hindi</i>)	19
WEATHER SUMMARY (<i>in Hindi</i>)	27
Vol. 17 No. 4	
ARTICLES	
Dr. S. K. Banerji, D. Sc., F. N. I.	
— <i>S. Basu</i>	517
Earthquakes in India and neighbourhood	
— <i>Karan Singh</i>	521
PAPERS	
Mesoscale study of summer Thunderstorms in Delhi area	
— <i>K. S. Venkataraman and N. S. Bhaskara Rao</i>	529
Radio-Climatology of India: II. Radio Refractive Index at 850-mb level	
— <i>S. M. Kulshrestha and K. Chatterjee</i>	545
SHORTER CONTRIBUTIONS	
Relation between moisture transported across the equator and the west coast of the Peninsula during the southwest monsoon season	
— <i>B. N. Desai</i>	559
A method of estimating the vertical component of gusts in turbulence in the upper air	
— <i>S. P. Venkiteshwaran and B. B. Huddar</i>	563
Some characteristics of tropopause over India	
— <i>P. S. N. Sastry and A. L. Narasimham</i>	567
Remarks on the three papers of Prof. H. Flohn read in the symposium on "Monsoons of the World" at New Delhi—19 to 21 February 1958	
— <i>B. N. Desai</i>	573
A climatological study of severe Heat Waves in India	
— <i>K. Raghavan</i>	581
Salt Particles and Haze in the Indian Monsoon Air	
— <i>R. C. Srivastava and C. Ronne</i>	587
Study of the heights of radar cloud tops in the Gangetic valley of West Bengal	
— <i>P. Bhattacharyya and A. C. De</i>	591
Radar echoes from non-precipitating clouds	
— <i>D. K. Rakshit and A. C. De</i>	597

On the influence of weather on wheat yield at Dharwar	— K. S. Ramamurti and J. R. Banerjee	601
Depletion of Solar Radiation by particulate matter in the atmosphere — A study with special reference to New Delhi	— S. Raghavan and B. R. Yadav	607
Hemispherical transport of volcanic dust inferred from diffuse radiation measurements	— P. S. Harihara Ayyar	613
Variations in radiation, ozone and some meteorological and soil parameters during the eclipse on 23 November 1965 at Dum Dum	— B. Padmanabhamurty and D. K. Rakshit	617
A telemetering current weather instrument system for use at airports	— J. C. Bhattacharyya and Anna Mani	623
On the comparison of Precipitation Gauges	— V. Kalyanasundaram	627
A recording telethermometer for use at airports	— S. V. Datar and P. M. Pakkir Mohammed	633
Direction of approach of Microseism	— S. K. Nag	637
Geomagnetic Solar Quiet Day variation S_q according to LT from the night time datum at Indian stations during 1958	— B. R. D. Gupta	643
LETTERS TO THE EDITOR		
A study of upper winds, temperature and humidity over Madras in relation to precipitation occurrences there during the monsoon season	— N. C. Rai Sircar and S. Jayaraman	649
Proposal for radiometric studies of Indian Summer Monsoons	— Rama	651
